Six Of The Best

Win a whole kilogramme of Cadbury's Dairy Milk Chocolate!

This competition is open to all children, but assistance is invited from all parents, friends and relatives!

The PRIZE of 1kg

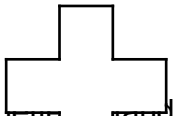
1. Take from a pack of cards all the Aces, Kings, Queens and Jacks. Arrange them in a 4 x 4 square so that every row, column and diagonal contains one card of each value and one card of each suit.

2. On a certain island, there are Knights (who always tell the truth) and Knaves (who always lie). You meet two people, A and B, and A says "At least one of us is a Knave." What are A and B?

3. In a game show there are three doors. Behind one is a car - the other two conceal goats. The competitor suggests Door A. The host opens Door B to reveal a goat, and says "Do you want to change your mind?" What should the competitor do to maximise his chances of winning the car?

4. What is the HUNDREDS digit (only) when you multiply 123456789 by 123456789 ?

5. With two straight lines, cut the Swiss Cross into four congruent pieces which then fit together to make a square:



6. In the puzzle below [illegible] for numbers, the
